

BATMAN™'S WAYNE FOUNDATION

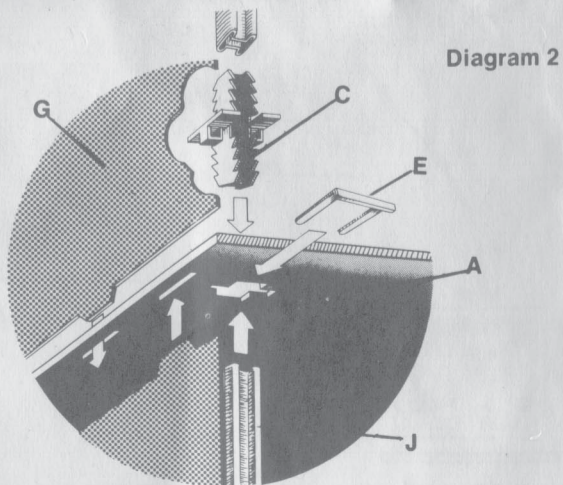

ASSEMBLY REQUIRED

1. Take the floor (A) and insert 5 single sided clips (D) and 5 "U" shaped inserts (E) as shown. Next attach 5 long uprights (J) to the clips. Put this assembly aside. See Diagram 1

2. Next, take another floor (A) and insert 5 double sided clips (C) and 5 "U" inserts (E). Make sure all inserts are assembled as shown, i.e., the open end faces the inside of the building. See Diagram 2

3. Take one of the large walls (G) and fit tabs between the two already assembled floors as shown. See Diagram 1 and 2

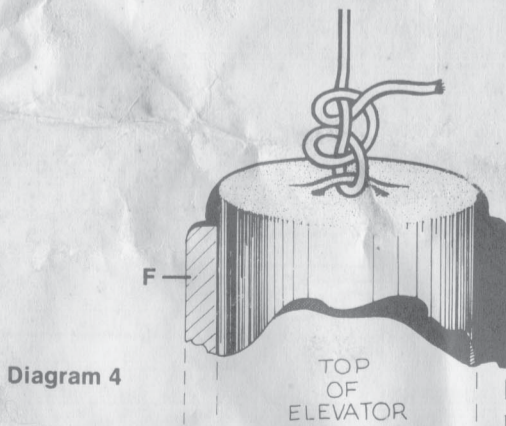

4. Using 5 long uprights (J), attach them to the floor you assembled in step 2. See Diagram 2

5. Construct the next floor by repeating steps 2, 3, and 4.

6. Take the last large floor (A) and place 2 single sided clips (D) at the wide end and fill the remaining holes with double sided clips (C) as shown. See Diagram 3

7. Repeat Step 3.

8. Tie string to elevator (F). See Diagram 4

9. Take the elevator (F) and fit into slots between uprights as shown. See Diagram 3

10. Use the remaining 3 single sided clips (D) with the "U" shaped inserts (E) and assemble them to the penthouse roof (B). See Diagram 3

11. Assemble the roof discussed in step 10, together with the three short uprights (K) and penthouse wall (H). See Diagram 3

12. Thread the elevator cord through the hole in penthouse roof. In order for the elevator to stop at the correct place, the Batman shield (I) must be tied when the elevator is stopped on the top floor. While in this position, the shield should rest below the second floor notch. See Diagram 7 Tie to shield at that spot. See Diagram 5

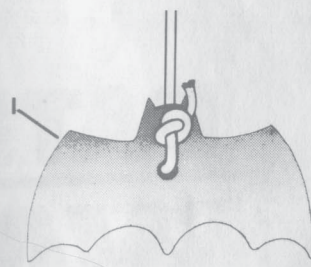

Diagram 5

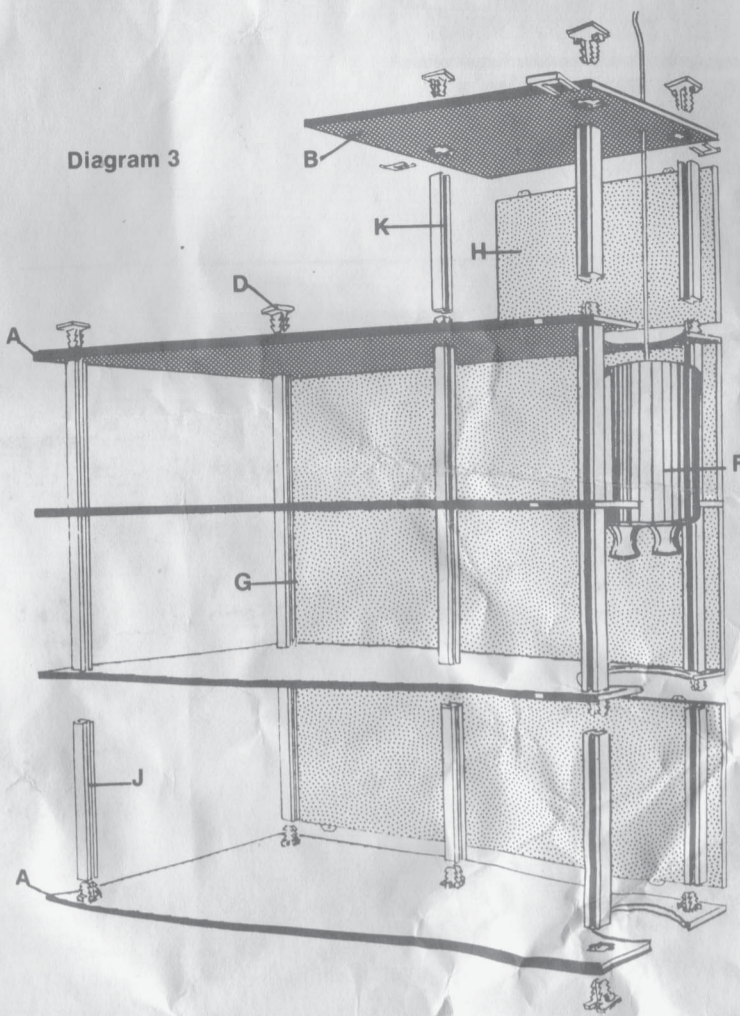

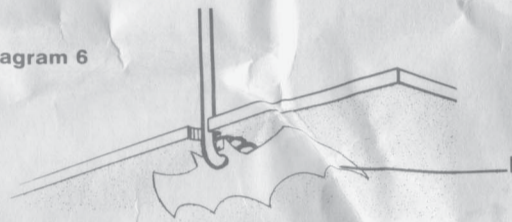

Diagram 3

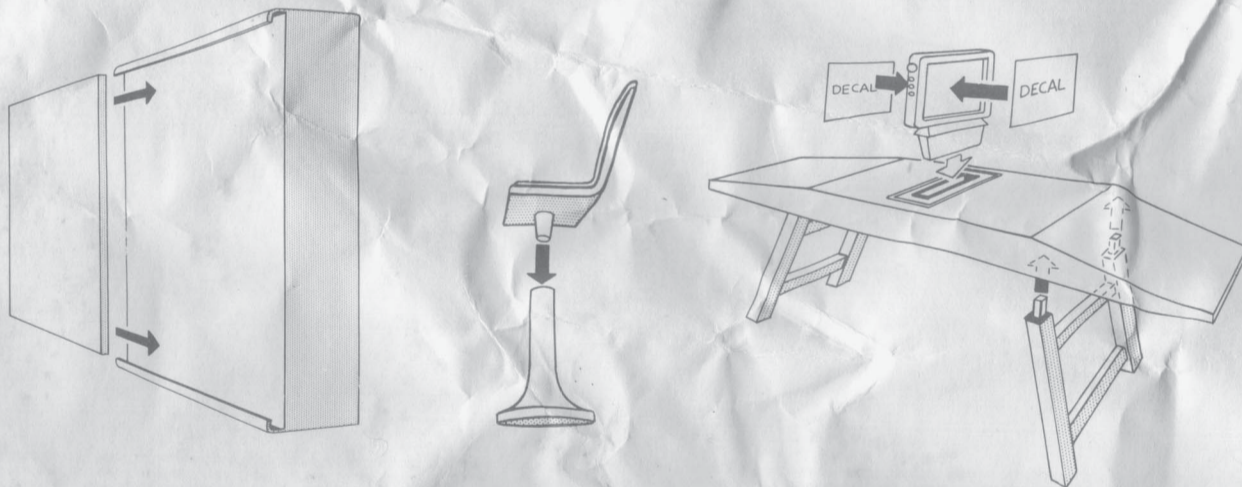

Diagram 7

13. Cord should thread through notches located in front of building. To stop the elevator between floors, simply place cord into one of the notches on the front and let the Batman Shield (I) rest. See Diagram 6

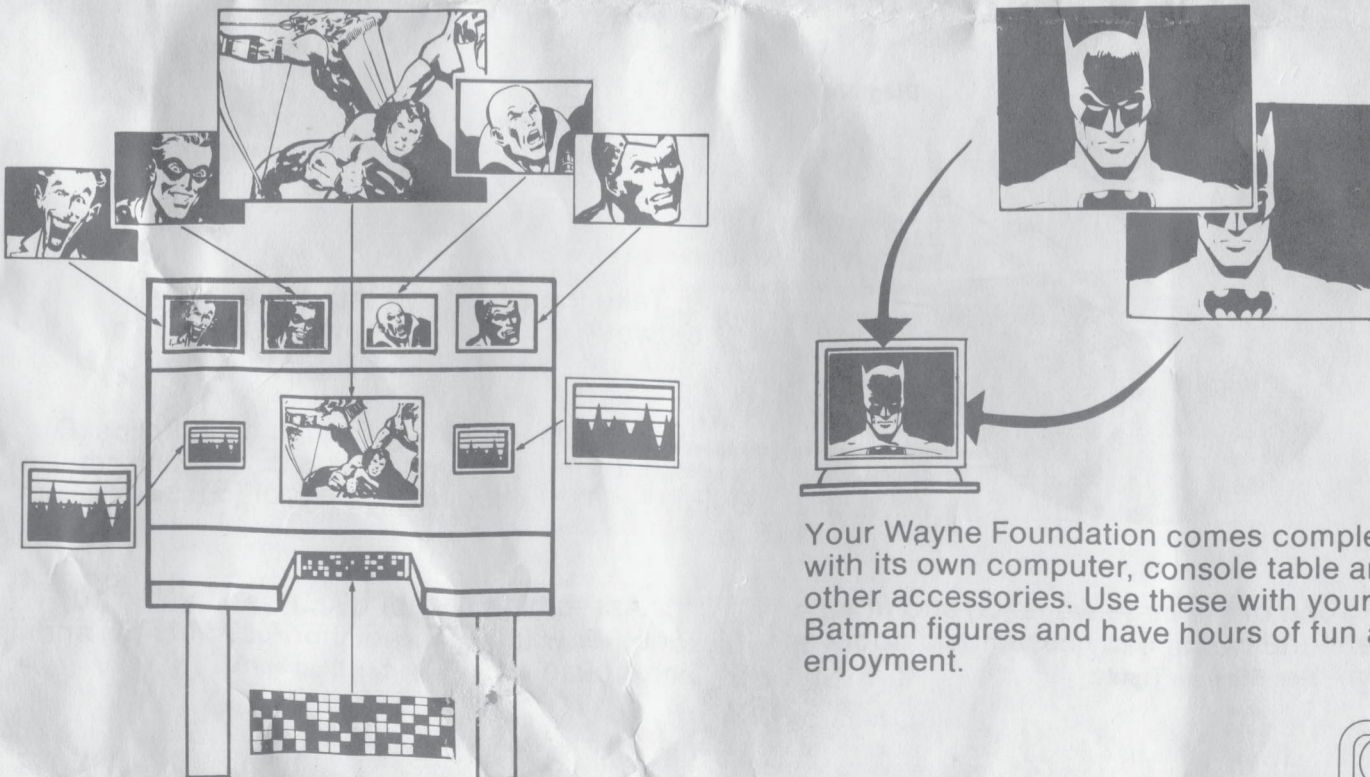

Diagram 6

Assembling Accessories:
Assemble your Wayne Foundation accessories as shown.

Applying Stickers:
Peel backing off each sticker and place on accessory as indicated.

Your Wayne Foundation comes complete with its own computer, console table and other accessories. Use these with your Batman figures and have hours of fun and enjoyment.
